

Our help gave Nadine the confidence and tools to secure a job the next day after her interview.

»»» Here's what she had to say about our work:

Nadine D. · 1st

Event Project Manager & Founder, Duncan Event Group

Nadine was Fatima's client

I highly recommend her services for anyone looking for a new career path. On July 23, 2017, Fatima prepped me for two interviews. The mock job interviews with her were so helpful and I felt extremely prepared and positive that I knew the right way to answer the interview questions. She guided me and taught me how to present my skills. She's an excellent listener and communicator. This was my first coaching session, and I landed a new job the next day. Thanks Fatima!!

The Problem:

Some of the problems that Fatima pointed out during her mock interview were that she:

- Went off-path in her answers, indulging in irrelevant details.
- Didn't present examples that showed off her accomplishments.
- Lacked confidence in her expertise

Additionally, she had a diploma in Pharmacy Technology, which wasn't related to her target job. She also had a one-year gap in her resume, which interviewers always seemed to want to grill her on.

Here is what our coach helped her with:

- 1 Showcase her expertise in the industry despite the lack of a relevant degree. Leverage her high-score certifications.
- 2 Illustrate her consistent skill development during her job search gap, which boosted her confidence and focused on her proficiency.
- 3 Answer each question strategically, emphasizing her unique value. Structurize and improve her answers.

She got the first job she interviewed for the following day!
